

# COVID-19 Global Rheumatology Alliance

The Global Rheumatology Community's  
Response to the Worldwide COVID-19 Pandemic

## Meet the COVID-19 Global Rheumatology Alliance (GRA) Patient Board

To further support the mission of the GRA, this patient board was established with a vision to represent a culturally and regionally diverse patient voice and expand the reach and visibility of the GRA's work to the broader patient and caregiver community. This group serves to amplify the patient's perspective by sharing ideas, initiatives, and feedback with the GRA Steering Committee.
